StrongHold™ Electrical PVC Vinyl Tape Full Line Offering

Suitable for primary insulation and splicing up to 600V and can be used as protective jacketing. Our offering protects against an array of abrasive and corrosive materials, while providing quality adhesion properties, as well as resistance of UV rays and cold weather.

Heavy Duty and Professional Grade Tape

ST 88

ST88

SP **UL**
LISTED

Heavy Duty grade that offers easy application for high level performance over a range of temperatures with protection against UV rays, abrasion, water, oil and other corrosive chemicals. Suitable for primary insulation for splicing up to 600V and can be used as protective jacketing.

ST 43

ST43

SP **UL**
LISTED

Pressure sensitive vinyl electrical tape that offers high abrasion resistance with easy application over a range of temperatures. Flame retardant as well as cold resistant, suitable for primary insulation for splicing up to 600V and can be used as protective jacketing.

ST 35

ST35

SP **UL**
LISTED

Available in nine colors for color coding, excellent elasticity and insulating properties. Professional grade designed to handle range of temperatures with protection against abrasion, water, oil and other corrosive chemical. Suitable for primary insulation for splicing up to 600V and can be used as protective jacketing.
